FRUIT LOGISTICA

8 – 10 February 2023 · Berlin, Germany

NEW Hall 1.1 · Stand B-21

KRONEN
THE CROWN FOR FRESHNESS

Invitation

We look forward to seeing you there!

At our stand, we will be presenting real innovations, new products and KRONEN classics as per usual: with live demonstrations of actual product processing.

The international KRONEN team looks forward to welcoming you to the stand in person – and advising you based on your individual needs.

Innovations and new products

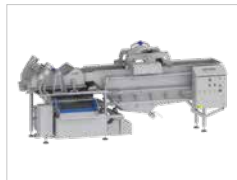

KRONEN[®]
THE CROWN FOR FRESHNESS

We view our company as a think tank that provides innovative, tailor-made solutions to benefit our customers.

▼ This new highlight will be unveiled at the event!

▼ **HEWA 3800V**
HELICAL washing machine
An innovative washing system for up to 2,5 t/h of salad leaves, fruit and vegetables

▼ **MPC 100**
manual pineapple dicer
Cuts peeled and cored pineapple cylinders into even chunks

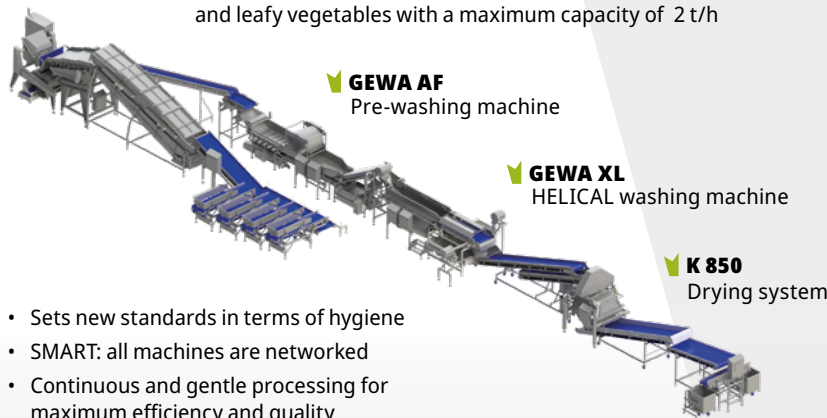

VIRTUAL highlight:

Intelligent weighing, washing, drying and sorting

LINE

A fully automated innovative processing line for salad leaves and leafy vegetables with a maximum capacity of 2 t/h

GEWA AF

Pre-washing machine

GEWA XL

HELICAL washing machine

K 850

Drying system

- Sets new standards in terms of hygiene
- SMART: all machines are networked
- Continuous and gentle processing for maximum efficiency and quality
- With integrated elements such as dynamic weighing systems and mechanical and optical sorting solutions from KRONEN partners
- **We advise and plan: the ideal solution for every customer requirement.**

Further machines for your processing: live demonstrations in full operation
